

## **Section 18 Use for Dinotefuran and Bifenthrin on Apples and Peaches for Control of Brown Marmorated Stink Bug**

The US-EPA has approved renewal applications for Section 18 Emergency Exemption uses for both dinotefuran and bifenthrin on apples and peaches in NC. Dinotefuran products labeled for use include Venom 70SG and Scorpion 35SL, and bifenthrin products include Bifenture EC and 10DF, and Brigade WSB. Critical information on uses of these products are listed in the table below. Growers must have the Section 18 labels in possession when using these products. PDF copies of the labels are available for downloading:

[Bifenture](#)

[Brigade](#)

[Scorpion 35SL](#)

[Venom](#)

<b>Product</b>	<b>Pre-harvest Interval (days)</b>	<b>Use rate/acre</b>	<b>Maximum amount per acre per year</b>
<b>Venom 70SG</b>	<b>3</b>	<b>4 to 6.75 oz</b>	<b>13.5 oz</b>
